

## **Outbreak Conditions Approved for Surveillance/Outbreak Response Activities Associated with Disease Response, Evaluation, Analysis and Monitoring/Healthcare Associated Infections (DREAM/HAI) Contracts**

---

### **Confirmed or Suspected Etiology**

Acute flaccid myelitis (AFM)

Adverse event resulting from smallpox vaccination (Vaccinia virus)

Anaplasmosis (*Anaplasma phagocytophilum*)

Anthrax (*Bacillus anthracis*) or anthrax-like illness caused by *Bacillus cereus* strains that express anthrax toxin genes

Any outbreak of gastrointestinal illness regardless of etiology

Arbovirus infection, including Chikungunya, West Nile, and Zika virus

Babesiosis (*Babesia*)

Botulism (*Clostridium botulinum*)

Botulism, infant (*Clostridium botulinum*)

Brucellosis (*Brucella* species)

Campylobacteriosis (*Campylobacter*)

Chagas disease

Chickenpox (Varicella-zoster virus)

Cholera (*Vibrio cholerae*)

Coccidioidomycosis (*Coccidioides*)

Colorado tick fever

Cryptosporidiosis (*Cryptosporidium*)

Cyclosporiasis (*Cyclospora cayetanensis*)

Dengue fever

Diphtheria (*Corynebacterium diphtheriae*)

Ehrlichiosis (*Ehrlichia*)

Encephalitis or meningitis (bacterial, fungal, parasitic, protozoan and viral)

Giardiasis (*Giardia lamblia*)

## Confirmed or Suspected Etiology

Haemophilus influenzae, invasive disease

Hantavirus infection (Sin Nombre virus)

Hemolytic uremic syndrome, post-diarrheal

Hepatitis A

Hepatitis, viral, including hepatitis B (acute, chronic and perinatal), C (acute, chronic and perinatal), D, and E

Influenza infection, non-seasonal strain

Influenza-associated death in a person less than 18 years of age

Influenza-associated hospitalization

Legionellosis (*Legionella*)

Leprosy (Hansen's Disease)

Leptospirosis (*Leptospira*)

Listeriosis (*Listeria monocytogenes*)

Lyme disease (*Borrelia burgdorferi*)

Malaria (*Plasmodium*)

Measles (Rubeola virus)

Meningococcal disease (*Neisseria meningitidis*)

Middle East Respiratory Syndrome (MERS)

Mumps

Norovirus

Pertussis (*Bordetella pertussis*)

Plague (*Yersinia pestis*)

Poliomyelitis, paralytic and non-paralytic

Psittacosis (*Chlamydophila psittaci*)

Q fever (*Coxiella burnetii*)

Rabies (human and animal)

Relapsing fever, tick-borne and louse-borne (*Borrelia*)

Rubella (excluding congenital syndrome)

Rubella, including congenital syndrome

Salmonellosis (*Salmonella*)

Severe acute respiratory syndrome (SARS)

Shiga toxin-producing *Escherichia coli* (STEC) infection

Shigellosis (*Shigella*)

Smallpox (Variola virus)

## **Confirmed or Suspected Etiology**

Spotted fever rickettsioses, including Rocky Mountain spotted fever (*Rickettsia*)

Streptococcal disease, invasive, due to *Streptococcus pneumoniae*<sup>1</sup> and Groups A and B

Tetanus (*Clostridium tetani*)

Toxic shock syndrome, staphylococcal or streptococcal

Transmissible spongiform encephalopathies (prion diseases), including Creutzfeldt-Jakob disease

Trichinellosis (*Trichinella*)

Tularemia (*Francisella tularensis*)

Typhoid, cases and carriers

Vibriosis (*Vibrio*), including Cholera

Viral hemorrhagic fevers, including *Ebola*, *Lassa*, *Marburg*, and *Nipah* virus-related illnesses
